

Building Fearless Futures

What we offer:

In our consultations, intervention support and facilitated programs we work to create spaces that encourage deeper consideration of ourselves, each other, our history and current predicament. We work to help build skills necessary to collaborate and succeed in a pluralistic, free society

Facilitated Programs

Program Title	Length	Description
1) Deconstructing White Supremacy Culture	1.5-2hrs	<p>“Denial is the heartbeat of racism”. -I.X. Kendi</p> <p>In this program we dissect white supremacy culture into digestible pieces to better see how racism manifests in ourselves, institutions and culture. We create space to collaborate toward deeper understandings of our many identities, including opportunity for racial affinity group conversation. With a focus on our shared power to dismantle racism, we provide participants with resources for continued personal and professional development. This program supports participants’ life long journey to recognize and disrupt racism, in the interest of justice and full self-actualization for us all.</p> <p>This workshop is both a stand-alone program and a prerequisite to participating in following workshops.</p>
2) Honoring Our Fore Mothers	1.5-2hrs	<p>“We must love each other and support each other. We have nothing to lose but our chains” -A. Shakur</p> <p>This program has two variations: one designed for educators and one for students. Building on the foundation set and homework provided in Workshop 1, we reach into our history for tools to help create a more equitable and just future. We focus on the voices, contributions and power of folks of color and the deep history of interracial collaboration toward shared needs, goals and justice. This program reframes the connections between race and class oppression in ways that enable Vermont students of all identities to see themselves as beneficiaries of, and participants in, the movement for racial justice.</p>

Building Fearless Futures
